Chiara Predola suggests that the judges' meetings are held by category or at least similar dance categories, because there are so many judges and not all of them are specialised in judging all disciplines, so they won't be wasting time on something that is not within their scope of work. Bartolo Dell'Aiera and Robert Ban reply that meetings by specialisation are being arranged and that some audio-visual materials will be presented in order for the judges to better understand the changes and to refresh their memory about the existing rules. This is why it is necessary that the Technical Committee and the Judges' Committees cooperate very closely and combine their efforts to lay down the clearest and best rules possible in order to elevate the quality of performance and of judging to a higher level.

All attendees agree that this is a great idea.

Bartolo asks if anybody has any questions or ideas. Since nobody replies, he thanks everyone for attending and points out that this has been an informative gathering after years of pandemic and that the next meeting will be arranged in the future, but for sure they will meet one month before the World Championship to refresh their memory about the rules and their tasks.

The meeting ends with Bartolo greeting the attendees and Leandro also joins in to farewell the attendees.

I, Iva Juričić, court interpreter for the English language, appointed by the President of the Pula County Court, decree number 4 Su-573/07-8 issued on 30th October 2007, hereby confirm that the given translation fully corresponds to the original version in the Croatian language.
